

CinemaSelect

Your Premier Movie
Booking Platform

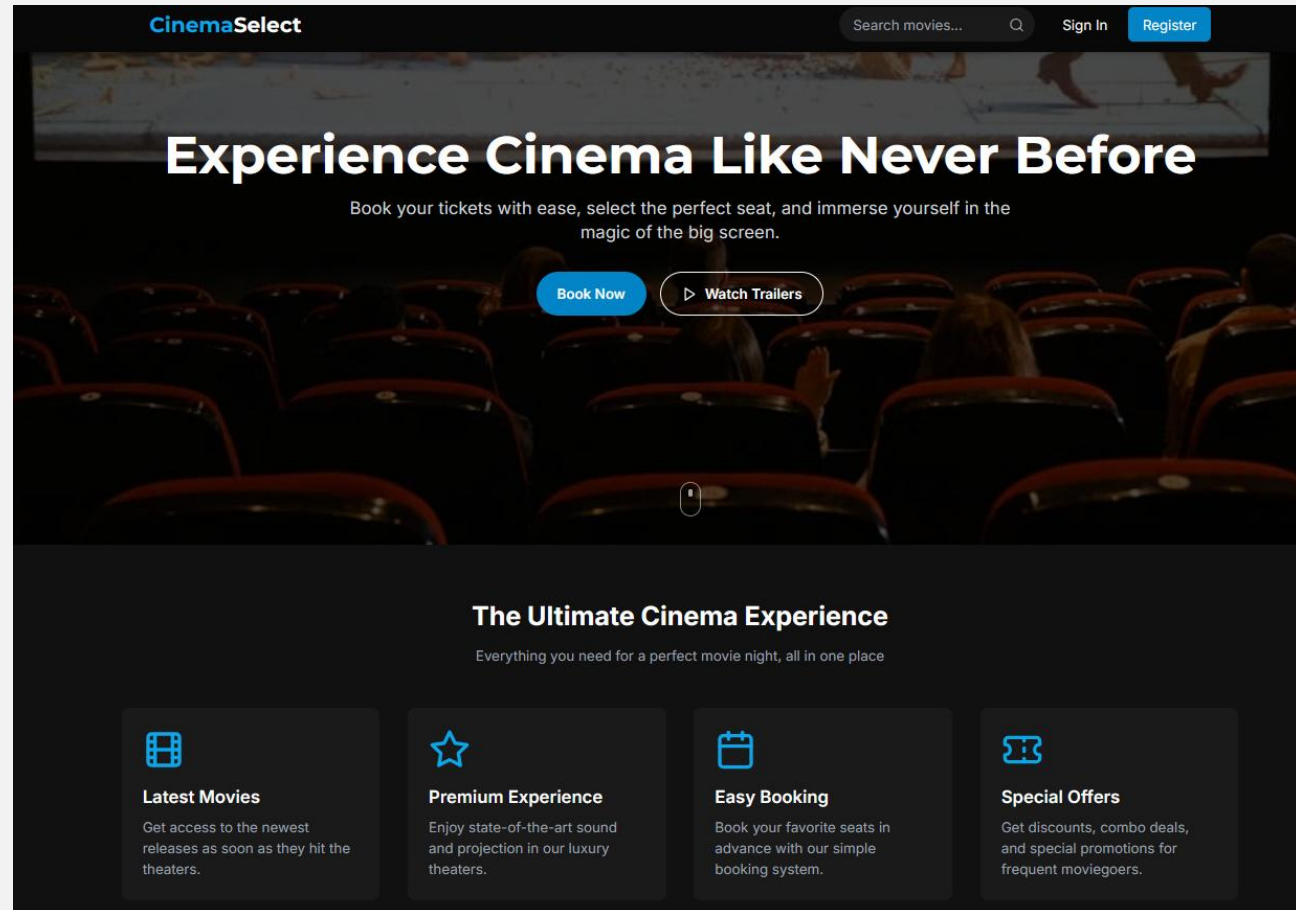

A modern, user-friendly application
for booking movie tickets online

Purpose: Streamline the movie ticket booking experience.

Target Users: Movie enthusiasts, families, and casual moviegoers

Key Goals: Simplify booking process, enhance user experience, increase customer satisfaction

Technology Stack

- Frontend: React 18 with TypeScript
- Styling: Tailwind CSS for modern, responsive design
- Animations: Framer Motion for smooth transitions
- Routing: React Router for seamless navigation
- State Management: React Context API

Key Features

Interactive seat selection
with real-time updates

Multiple payment
options (Credit Card,
UPI, Digital Wallets)

User profiles with
booking history

E-ticket generation and
management

Theater and showtime
management system
